

In the Claims:

Please enter the following new Claim 10:

B2 10. For the environment of a typical walking shoe that extends directionally longitudinally along a central upright-plane and having a horizontal lower-base extending directionally longitudinally from a rear-end thereof, the improvement comprising: relegatively attach - ably confined to the rear-end of the walking shoe lower-base and extending loftily thereabove a visual warning means comprising: at least one lofty and horizontally vibratory upright column and wherein each such column topically carries a visually prominent bright ornamental feature.

Please amend Claims 2, 3, 4, 6, 8, and 9, to read, as follows:

2. The improved walking shoe of Claim 10 wherein the at least one topically carried ornamental feature possesses a luminescent characteristic and wherein each such column is loftily helically provided throughout.

B3 3. The improved walking shoe of Claim 2 wherein there is a plurality of said visual warning means, all being underlyingly attached at a common-adapter located at a rearward portion of the walking shoe lower-base.

4. The structure of Claim 2 wherein the topically carried ornamental feature takes the form of an incandescent bulb that is powered from a chemical storage-battery that is removably attached to the walking shoe lower-base nearby the rear-end thereof.

B4 6. The structure of Claim 5 wherein there is a plurality of said helical vibratory members, all being attached through a common-adapter to the rear-end of said walking shoe lower-base and in adjacent proximity to the said removably positioned chemical storage-battery.

B5 8. The structure of Claim 7 wherein there are plural pairs of flexible metallic wires and surrounding helical vibratory members, all said pairs being attached through a common-adaptor to the rear-end of said walking shoe lower-base and in adjacent proximity to said removably positioned chemical storage-battery.

9. The structure of Claim 2 wherein the at least one visually bright topical ornamental feature is itself independently luminescent and without the need of a chemical storage-battery.

The 28 August 2002-dated and today's re-filed independent Claim no. 10 is the sole remaining independent claim herein because:  
Please now again cancel the 22 January 2001-filed Claim 1.
